- Contributing to a range of software development and web-related tasks. Assisting with website updates, content management, development of custom business management applications, and full-stack development processes.
- Collaborating with lead developer to translate client requirements into functional features. Clients include; Hilton Hotels ANPR, Fordhall Farm, JLloyd, Med-Fit, Premier Villas, RJ Lifts, Staffordshire Freemasons, and The Foundry.

#### Web Operative, Cromartie Hobbycraft Ltd, Stoke-on-Trent

Jun 2025 - Sep 2026

- Enhanced Cromartie's online presence and visibility by implementing SEO strategies across the website. Conducted keyword research and analysed website performance to support organic search improvements.
- Worked with the wider team to keep website content aligned with SEO best practices. Monitored competitors and industry trends to develop data-driven recommendations for organic traffic.

### PROJECTS

#### Internal Records Management Desktop Application

Ongoing

- Anonymised desktop application project built around business records, client info, jobs, invoices, staff workflows.

#### Multi-tier Personal Portfolio Website

Ongoing

- Developed a multi-tiered website to display my portfolio, in accordance with UI & design best practices.

#### Cromartie Product Page SEO Optimisation

Finished

- Ecommerce SEO for product pages, metadata, descriptions, image SEO, internal linking, page content updates.

#### Go Website Health Check REST API

Finished

- Go REST API, checking website availability, handles timeouts, stores results, and returns JSON health check data.

#### Shopify API Integration

Finished

- Commercial API integration task with Shopify API documentation and applying it to workplace development tasks.

### SKILLS

**Languages, tools, workflows:** Python, Java, C#, Go, JavaScript, PHP, SQL, Object-Oriented Programming, Data Structures & Algorithms, REST APIs, API Integration, Git, GitHub, MySQL, PostgreSQL, Postman, HTML, CSS, Technical SEO.

**Problem Solving:** Investigated a sudden Google Analytics traffic drop for Cromartie by comparing multiple data sources, ruling out likely causes and identifying cookie consent as the issue.

**Communication Skills:** Regularly act as the spokesperson for Cerberus Software Solutions Ltd across various projects to discuss expectations, requirements, concerns and issues with clients and communicating this with the internal teams.

**Analytical Skills:** Created a backend system based off legacy code, responsible for storing and processing ANPR camera data, enabling management for car park barriers through a mobile application, installed across multiple Hilton hotels.

**Teamwork:** Collaborated with peers for an IoT hackathon where we programmed a RaspberryPi 2 to create a house intruder system using a temperature and humidity sensor.

**Continuous Learning:** With the nature of my existing roles, each of my personal projects are intentionally within a new topic/subject to widen my knowledge and to ensure I am continuously learning new things and expanding my skillset.
